

Leaps

HOSPITALITY COLLECTION

The art of
a considered stay.

HOTEL TEXTILES &
GUESTROOM ESSENTIALS

COLLECTION 01 / BED · BATH · SPA

LEAPS ENTERPRISES LLC

BEYOND THE FIRST IMPRESSION

Comfort, considered down to the last detail.

From the towel placed beside the bath to the linen that finishes a suite, the smallest details shape how a stay feels.

Leaps brings together hospitality textiles and guestroom essentials around your property's brief: the right material, a considered finish and a clearly agreed specification.

SPECIFY

Size, composition and finish.

PERSONALISE

Your identity, carefully applied.

Collection imagery is illustrative. Final products, materials, compliance and availability are confirmed by quotation and approved sample.

A COMPLETE GUESTROOM VOCABULARY

Six families. One cohesive experience.

01

Towels & bath mats

Bath, pool, beach and spa.

04–08

02

Bathrobes

Terry, waffle and velour.

09–10

03

Guest slippers

Styles, fit and packaging.

11–12

04

Bed linen

Sheets, covers and cases.

13–16

05

Bedding & protection

Pillows, duvets and layers.

17–20

06

Bespoke & project support

From sample to delivery.

21–23

A softer welcome.

Towels and bath textiles, selected for the
feel you want guests to remember.

CHOOSE THE WEIGHT. CONFIRM THE FEEL.

Three directions for your towel programme.

Essential

500–550 GSM

A lighter commercial specification for everyday guestroom rotation.

Signature

600 GSM

A balanced, substantial towel direction for premium rooms and suites.

Reserve

650–700 GSM

A richer, heavier handle where the guest experience calls for added loft.

Proposed sourcing directions, not stock collections. GSM alone does not establish durability, absorbency or laundering performance.

BUILD A COORDINATED SET

From face cloth to bath sheet.

ITEM	SIZE OPTIONS (cm)	GSM OPTIONS
Face towel	30 × 30	500–650
Guest towel	30 × 50 / 33 × 50	500–600
Hand towel	40 × 70 / 50 × 90 / 50 × 100	500–650
Bath towel	70 × 140	550–650
Premium bath towel	80 × 160	600–700
Bath sheet	90 × 180	600–700
Bath mat	50 × 80	800–1,000

White

Ivory

Sand

Stone

Charcoal

Indicative finished sizes. Match the approved sample and the property’s laundry process before production.

GSM = grams per square metre. Size and weight tolerances, wash shrinkage and branding are agreed in the product specification.

BEYOND THE BATHROOM

At home by the water.

RESORT STRIPE

80 × 160 or 90 × 180 cm
450–550 GSM options

SIGNATURE POOL

90 × 180 cm
550–600 GSM options

Solid colours, woven stripes and jacquard branding can be coordinated with cushions, parasols and your beach-club palette.

Colourfastness to pool water and laundering must be validated on the selected colour and construction. No blanket “sand-proof” claim.

COMPLETE THE RITUAL

The details around the towel.

BATH MATS

50 × 80 cm | 800–1,000 GSM
Cotton terry; plain or framed border.

SPA & TREATMENT LINEN

Face-cradle covers, treatment-bed covers and smaller spa towels, sized to the treatment setup.

A textile bath mat is not a certified anti-slip floor mat. Specify and test slip-resistant requirements separately.

An unhurried moment.

Bathrobes with a considered balance of comfort, weight and ease of movement.

SILHOUETTES & TEXTURES

The robe, refined.

Terry

380–450 GSM OPTIONS

Looped cotton; shawl or kimono collar.

Waffle

220–300 GSM OPTIONS

Textured weave; a lighter robe direction.

Velour

400–480 GSM OPTIONS

Velour outer face with absorbent terry inside.

FIT

S/M, L/XL and XXL options; confirm chest width, body length, sleeve and belt measurements.

FINISHING

Hanging loop, reinforced belt loops, pockets and logo placement approved on the physical sample.

Images illustrate styling only. GSM, fibre composition, cut and sizing must be confirmed for the selected supplier model.

A SMALL WELCOME, THOUGHTFULLY FINISHED

Comfort in every step.

STANDARD ADULT

29 × 11 cm approximate external sole
5 mm EVA sole direction.

PREMIUM ADULT

30 × 11.5 cm approximate external sole
7 mm EVA sole direction.

PERSONALISATION

Terry, waffle or velour upper. Logo embroidery, print or a branded paper band.

External sole length is not the same as internal fit. Physical samples and wet-surface grip testing are required. Guest slippers are not pool safety footwear.

CHOOSE BY USE, NOT APPEARANCE ALONE

A considered finish to the guestroom.

Closed toe

A traditional guestroom profile.

Terry / velour / waffle uppers

Open toe

A more open spa-style profile.

Specify fit and intended use

Sole & construction

Confirm the complete build.

Grip / thickness / bonding

Presentation options: recyclable paper band, individual paper envelope or project-approved packaging. Children's sizes and alternative adult sizes can be developed after fit review.

No universal size covers every guest. Packaging and sustainability claims must match the actual selected materials.

Rest, beautifully made.

Layered bed linen and bedding for a coherent, quietly luxurious room.

A LANGUAGE OF WEAVE AND FINISH

Choose the hand feel, not just a number.

Percale

200-300 TC DIRECTION

A clean, crisp plain-weave option.

Sateen

300-400 TC DIRECTION

A smooth surface with a subtle sheen.

Stripe

300 TC DIRECTION

A restrained woven-stripe finish.

Thread count is one specification variable. Yarn, weave, finish, shrinkage and actual wash performance also matter. Cotton and agreed cotton-blend options.

A COMPLETE LINEN SYSTEM

Every layer, resolved.

FLAT SHEETS

Bed width, tuck allowance and finished drop.

FITTED SHEETS

Exact mattress size, depth and elastic construction.

DUVET COVERS

Actual duvet size, closure and housekeeping access.

PILLOWCASES

Pillow size, overlap and envelope or Oxford finish.

Prepare the linen schedule around actual mattresses, duvets and pillows, not room-category names alone.

DIMENSIONS BEFORE PRODUCTION

A better fit starts with the bed.

EXAMPLE BED	MATTRESS (cm)	FLAT SHEET* (cm)	DUVET COVER* (cm)
Single / twin	100 × 200	180 × 300	160 × 240
Queen	160 × 200	260 × 300	240 × 240
King	180 × 200	280 × 300	260 × 240
Super king	200 × 200	300 × 320	280 × 260

FITTED SHEETS

Specify width × length × mattress depth; add the agreed tuck and elastic allowance.

PILLOWCASES

Typical quotation directions: 50 × 75 or 50 × 90 cm, with closure allowance and flange stated separately.

*Illustrative sizing only, not UAE hotel standards. Check mattress and duvet dimensions, desired drape and wash allowance before approval.

BUILD YOUR PILLOW MENU

Support, with a personal preference.

MICROFIBRE / HOLLOWFIBRE

A synthetic-fill direction, available in different fill weights and firmness levels.

FEATHER / DOWN BLENDS

A natural-fill option, subject to operator approval, verified fill content and agreed sourcing documentation.

SIZE & COVER

50 × 75 and 50 × 90 cm quotation directions. Specify shell fabric, fill weight, construction and laundering.

No universal pillow suits every guest. Allergy, hygiene, fire-performance and care claims must be supported for the selected product.

A CONSIDERED SLEEP CLIMATE

The right warmth. The right weight.

DUVETS

Microfibre or approved natural-fill options. Match warmth and fill weight to the room and laundry programme.

TOPPERS

An optional comfort layer. Define depth, fill, retention method and cleaning route.

Approve a room trial before committing to a property-wide fill specification. Weight alone does not describe warmth.

Confirm the complete duvet construction and test requirements. No unsupported “hypoallergenic” or thermal-rating claims.

PROTECT THE INVESTMENT UNDERNEATH

Quiet protection. Considered construction.

MATTRESS PROTECTORS

Quilted or membrane-backed directions. Confirm waterproof performance, comfort, noise, skirt depth and care.

PILLOW PROTECTORS

Envelope or zipped constructions. Match the pillow and laundering route; define closure and seam requirements.

Final performance depends on the complete product, not fabric claims alone.

Waterproof, breathable, allergen-barrier and fire-performance claims must be evidenced for the exact construction.

GIVE THE ROOM ITS OWN VOICE

Subtle layers. A distinctive room.

BED RUNNERS & TROWS

Dimensioned to the bed and visual brief. Coordinate texture, reverse fabric and edge treatment.

CUSHIONS & BED SKIRTS

Specify insert, closure, finished drop and housekeeping access before production.

BLANKETS & COVERS

Choose construction, finished weight and laundry compatibility by room use.

Decorative textiles may need a different cleaning route from white bed linen. Final fabrics and fire requirements are project-specific.

YOUR IDENTITY, TRANSLATED INTO TEXTILES

A signature that belongs to your property.

Embroidery

Approve artwork, thread shade, position and stitch density.

Jacquard

A woven motif or logo integrated into the textile structure.

Labels & packaging

Care labels, inventory identifiers and branded presentation.

White

Ivory

Sand

Stone

Charcoal

White · ivory · sand · stone · charcoal
Final colours approved against physical swatches.

Colour appearance varies on screen and in print. Branding shown is illustrative; final logo execution requires a pre-production sample.

EVIDENCE BEFORE COMMITMENT

Beautiful in the room. Specified for the operation.

- 01 **Define** Size, weight, composition, weave, hems and identity.
- 02 **Sample** Approve hand feel, workmanship, colour and fit.
- 03 **Validate** Agree wash tests, shrinkage, absorbency and relevant product evidence.
- 04 **Control** Approve packing, inspection criteria and batch consistency.

Third-party certificates are requested where relevant and verified for their current scope. This catalogue does not assert Leaps certification.

FROM FIRST SAMPLE TO FINISHED ROOMS

Begin with a clear specification.

THE PROPERTY

Hotel / resort / beach club / spa; rooms, outlets and opening or replacement need.

THE IDENTITY

White or colour, embroidery or jacquard, packaging and room allocation.

THE COLLECTION

Product family, quantity, finished dimensions, material, GSM or thread count.

THE PROGRAMME

Sample deadline, testing, delivery location, phased quantities and required date.

Send a bill of quantities or request a sample consultation.

Pricing, minimum quantities, lead times and warranties are agreed per quotation. Replenishment planning follows the approved specification.
